

OR-T 115 Battery Hand Tool for Plastic Strapping

Affordable and reliable

Engineered in Switzerland, manufactured with robust components and precise manufacturing standards. A perfect balance between high performance and cost efficiency.

Universal applications

A true all-rounder, reliable tool with clear controls and an intuitive interface, improving process reliability across teams and reducing downtime. A wise choice for standard applications.

Lightweight and versatile

The tool's optimized weight and balance make it exceptionally easy to carry and use, reducing operator fatigue whilst delivering consistent results.

Sustainable design

Every component can be replaced. Metal and plastic parts are made from recycled and recyclable materials.

OR-T 115

Battery Hand Tool for Plastic Strapping

A smart choice designed for universal applications, giving you the essential features and high quality. Optimized for 12/16 mm straps. Efficient cycle execution and straightforward operation for maximum efficiency.

Benefits and Features

■ A great choice for everyday use

OR-T 115 is the outcome of decades of expertise in strapping battery tools. Engineered in Switzerland, OR-T 115 is built as a budget friendly, robust all rounder for the professionals seeking for an affordable solution without compromise on performance.

■ Increased productivity

Increased efficiency due to fast-charging BOSCH® batteries that require only 24 minutes to charge to 80% capacity.

■ Sustainable design

High-quality metal and plastic parts, made of recycled or recyclable materials. OR-T 115 components are fully replaceable, allowing expanded product lifetime and streamlined tool management.

| Strapping tool | OR-T 115 |
|---------------------------------|---|
| Operation mode | auto / semi / manual |
| Tension force range | 250–2000 N / 56–450 lbf |
| Tension speed | 145 mm/s (5.7 in/s) |
| Weight (incl. battery) | 3.65 kg (8.05 lb) |
| Dimension (L x W x H) | 340x 149 x 137 mm (13.4" x 5.9" x 5.4") |
| Working temperature | -10 °C to +40 °C (14–104 °F) |
| Relative humidity | up to 90% |
| Sealing (joint type) | friction weld seal |
| Joint strength* | up to 80% |
| *Value depends on strap quality | |
| Battery / charger | |
| Charger type | Bosch GAL 18V-40 |
| Battery charger voltage | 100 or 110 or 230 V |
| Charging time | 80% in 24 min |
| Battery type | Bosch Li-Ion 18V, 2.0 Ah |
| Cycles per battery charge | |
| ■ Low tension, up to | 650 |
| ■ Medium tension, up to | 420 |
| ■ High tension, up to | 280 |
| Strap | |
| Strap | PET (Polyester) PP (Polypropylene) |
| Width | 12–13, 15–16 mm (1/2", 5/8") |
| Thickness | 0.5–1 mm (.019"–.040") |
| Features and Options | |
| Strap alignment indication | ● |
| Strap dust blow out vent | ● |
| 0-Tension welding | ● |
| Battery charger | Optional |
